<b>Proposed Claim</b>	<b>Atty. Docket No.</b> <b>VIGN1250-1</b>
<b>Applicant</b> <b>Sean M. McCullough</b>	
<b>Application Number</b> <b>09/681,758</b>	<b>Date Filed</b> <b>05/31/2001</b>
<b>Title</b> <b>Method for Continuous, Frame-Specific Click-Stream Recording</b>	
<b>Group Art Unit</b> <b>2154</b>	<b>Examiner</b> <b>Patel, Ashokkumar B.</b>
<b>Confirmation Number:</b> <b>6416</b>	

**Proposed New Claim:**

(New) A method of tracking the origin of a request for a network address, comprising:

receiving a first frame identifier and a requested network address at a first time, wherein the first frame identifier is associated with a first frame and the requested network address was requested from the first frame;

finding a record including the first frame identifier, an originating network address and a second time, wherein the second time precedes the first time and the originating network address is associated with a page containing the first frame; and

generating an entry for a table that includes the first frame identifier, the originating network address, the requested network address, and a third time.

**Remarks**

Examiner Patel, thank you for taking the time to look at this proposed new claim.  
Please do not hesitate to call me directly on 512-637-9226 if you would like to discuss.
